Portfolio: <https://vangapandukundan.github.io/MY-PORTFOLIO/>

PROFESSIONAL SUMMARY

Detail-oriented Python Developer and Data Science student with hands-on experience in machine learning, data analytics, and automation. Proven ability to build scalable ML models, develop full-stack dashboards, and deploy intelligent solutions that improve efficiency and decision-making.

EDUCATION

GITAM University (2023 – 2027)

B.Tech in Computer Science Engineering (Data Science)

CGPA: 7.8 / 10

INTERNSHIP EXPERIENCE

- Completed a 2-month Data Science Internship (Jul 2025 – Sep 2025).
- Worked on real-world datasets for data preprocessing, feature engineering, and exploratory analysis.
- Developed supervised learning models and evaluated performance using accuracy, precision, recall, and F1-score.
- Built automated reports and visual dashboards to present insights effectively.
- Collaborated in a team-based environment and delivered solutions within deadlines.

TECHNICAL SKILLS

- Programming: Python, SQL, JavaScript, HTML, CSS
- Frameworks: Flask, Django, Streamlit, Bootstrap
- Libraries: Pandas, NumPy, Scikit-learn, TensorFlow, OpenCV, Matplotlib, Seaborn
- Tools & Platforms: Git, GitHub, Google Cloud Platform, Power BI, Jupyter Notebook, VS Code

KEY PROJECTS

- AI-Powered Code Review Assistant:** Developed a Flask-based application to automate code quality analysis. Integrated Git repository scanning and improved debugging efficiency by 25% using real-time issue detection.
- DishVentory AI – Smart Inventory Predictor:** Designed a demand forecasting ML model reducing inventory errors by 30%. Implemented predictive analytics to prevent stockouts and optimize resource allocation.
- Personal Finance Analytics Dashboard:** Built a full-stack data visualization system processing 1000+ transactions. Implemented budget alerts and predictive expense modeling.
- Live Emotional Feedback Tracker:** Created a real-time emotion recognition system using OpenCV with sub-120ms latency and interactive performance dashboards.

CERTIFICATIONS

- Data Science Internship Certificate (Jul 2025 – Sep 2025)
- Data Analytics Professional Certificate – Coursera

- Python Developer – Elevate Labs
- Data Visualization with Python – IBM

ACHIEVEMENTS

- Built classification models achieving 92% accuracy using supervised learning techniques.
- Awarded Best Poster Designer – GITAM Kabaddi Hyderabad.
- Led multiple college-level technical and design initiatives.
